

Knauf Plasterboards

With its range of plasterboards, Knauf offers consistently first class performance from a wide choice of specifications.

The range comprises both standard and high performance plasterboards to provide the right solution for a broad spectrum of building requirements. All Knauf plasterboards are available in a wide choice of size, thickness and edge profile and are ideal for use in ceilings, walls and partitions. In addition, boards are available to offer enhanced resistance to:

- Moisture
- The movement of water vapour
- Sound transmission
- Impact
- Fire
- Fire and moisture combined.
