Gypframe Metal Sections

A full range of Gypframe metal stud and tracks is available. Please contact your local Encon branch for further details.

Plasterboards

Market leading Gyproc plasterboards provide durable, high quality linings, performance-tested to meet the fire, thermal, acoustic and impact resistance requirements of modern buildings.

Metal Components

The essential 'backbone' of all British Gypsum performance warranted wall, ceiling and encasement systems, Gypframe metal components offer a unique combination of strength and handling benefits.
