

Plasterboard

Lafarge Plasterboard offers a comprehensive range of standard wallboards and performance boards providing enhanced thermal, sound, moisture, fire and impact resistance. The company's Deco range of products is a presealed boards and jointing system which reduces installation and finishing time.

Bonding Compounds

Bonding compounds, two coat formulation joint cements and joint tapes are designed to make light work of installation, whilst a wide range of metal studs and tracks allows for a complete system approach to drywall design.
