

House Building Overview

Building Insulation | Groundworking Products
Masonry Components | External Facades
Passive Fire Protection | Drywall Systems

The Distributor of Choice

The Encon Group is the UK's No 1 independent distributor of building materials with a range of supply chain solutions designed to meet the specific needs of housebuilders. Whether you're looking for groundworking products, building insulation, drywall systems or finishing products, we have all the solutions for your new build projects under one roof, delivering what you need when you need it.

Through our four specialist distribution divisions: Encon Insulation, Nevill Long Interior Systems, Encon Technical Solutions and Encon Construction Products, we supply an extensive range of products from trusted brands spanning foundations to finishes.

Our national network of 22 branches includes dedicated Passive Fire Protection Centres with specialist teams to support housebuilders with their passive fire protection requirements for new homes.

Working with market leading brands

Dedicated Support

Choosing Encon means choosing consistency, convenience and peace of mind. Our wide choice from stock and national distribution means we can accommodate plot load deliveries, leading to fewer deliveries, less paperwork and greater efficiencies – all part of Encon's reliable service from our experienced and friendly teams.

Building Insulation

Groundworking Products

External Facades

Masonry Components

Passive Fire Protection

Drywall Systems

Building Insulation

Thermal, acoustic and fire protection insulation, with solutions for the whole building envelope including external wall, roof, floor and internal wall insulation.

Groundworking Products

A full range of products specifically for groundwork preparation including gas protection and damp proof membranes and associated ancillaries.

Masonry Components

Every brickwork and masonry ancillary you will ever need including brickwork reinforcement, wall ties and damp proof course.

External Facades

Full render systems for the external walls of buildings, including through-coloured renders and a range of ancillary products to enhance the characteristics and performance of the render.

Passive Fire Protection

An extensive range of cavity barriers, fire protection boards and fire stopping solutions with products that can help you to achieve fire safety standards as specified in the current building regulations.

Drywall Systems

All the components needed for drywall including standard and specialist boards, metal sections, accessories and plaster.

Floor Insulation

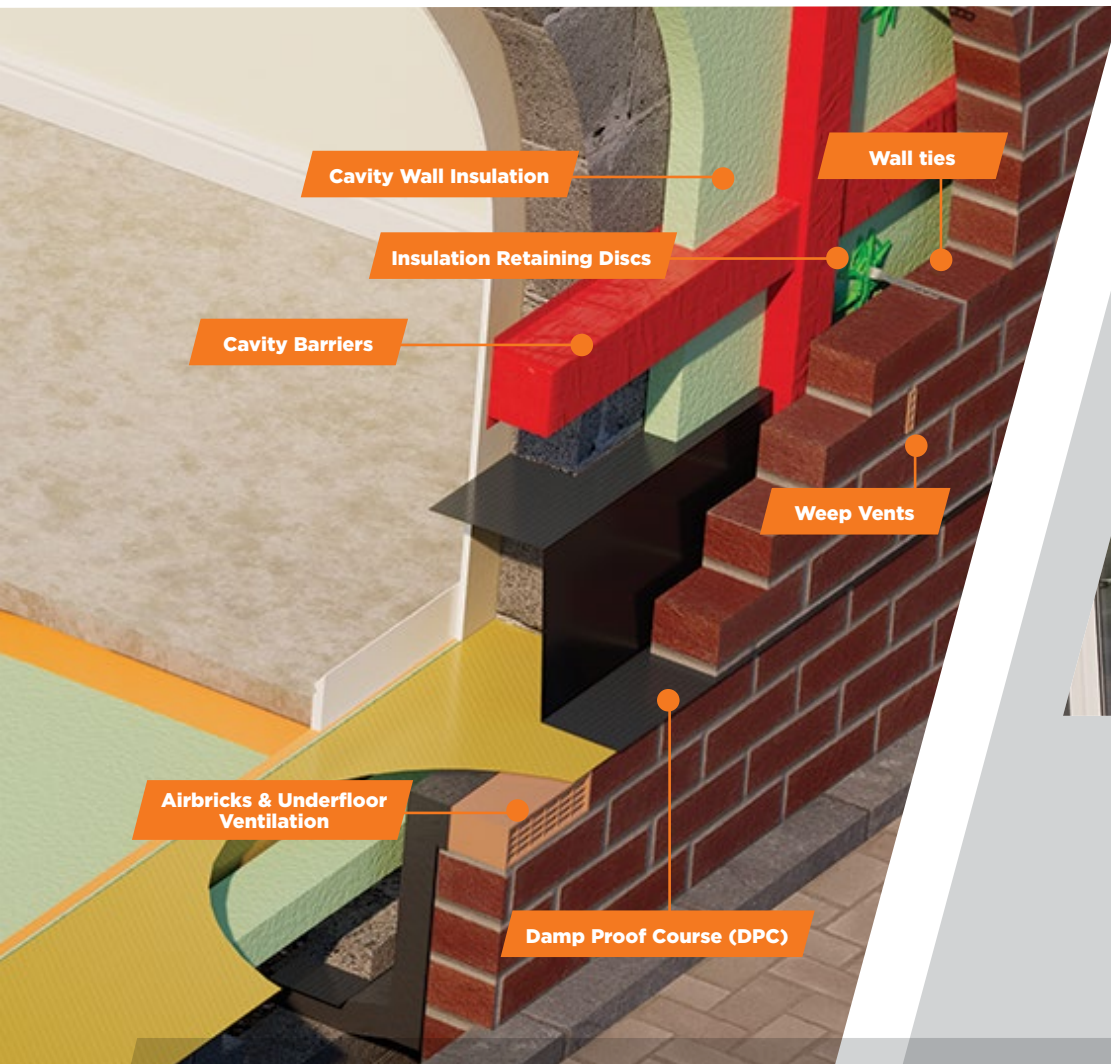

Damp Proof Membrane

Partition Wall Insulation

Thermal Bridging Block

Cavity Wall System

Our range of cavity wall insulation for new buildings includes solutions that improve energy efficiency and thermal performance as well as options that offer fire performance. We stock solutions to suit a variety of build methods, including brick and block and timber frame. To complete your cavity wall build up we offer all the complementary accessories and ancillaries required.

Roof System

Our range of roofing insulation includes various material types in slabs, rolls and boards, suitable for cold and warm roofs. To complete your roof build up we offer a comprehensive range of roofing membranes and underlays. We also offer the full ARC Masonry and Timber Frame party wall systems - they are fully tested systems that offer fire protection and reduce thermal bypass.

Why choose Encon?

Trusted Brands, From Stock

Our strong relationships with market leading brands across all our divisions ensure customers benefit from wide stock availability and reassurance of supply through our national branch network. This means all the solutions you need, from one main supplier.

Unrivalled Service, Nationwide

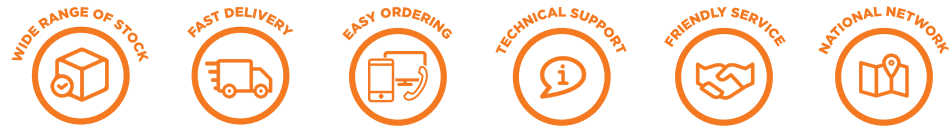

Our customers are our number one priority, and we aim to make it easy for you. Our nationwide coverage means there is always an Encon branch within reach to support your project needs. Our fully stocked warehouses and yards, convenient collection service, dedicated vehicle fleet and flexible deliveries ensure you get all the products you need on time, to specification and in the volumes you need. Deliveries include plot loads, split loads, next day or just in time.

Knowledgeable Support

Our trained product champions ensure customers benefit from reliable guidance at every stage of your project and our strong partnerships with established manufacturers includes access to technical support and the relevant manufacturer warranties, accreditations and certifications.

Quality & Safety Assured

Quality in the delivery of products and reliability is always top of mind for our business. Our HSEQ team continually strives to oversee, implement and improve health and safety procedures throughout our business. We are fully accredited to ISO 9001, ISO 14001 and ISO 45001 and carefully consider the social and environmental impacts of our business.

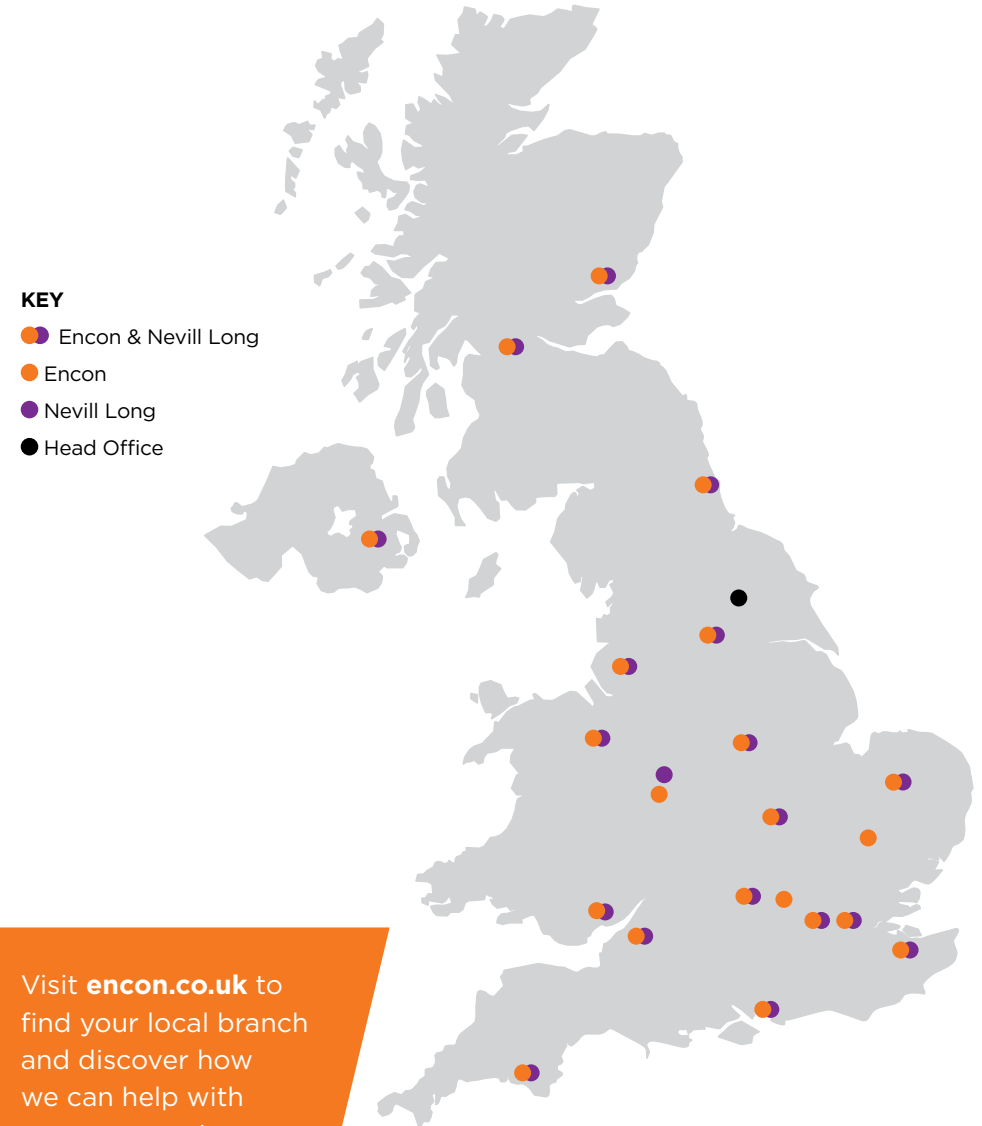

Standards & Accreditations

Encon Network, Local Support

All our branches supply an extensive choice of solutions for the built environment, including building insulation, interior systems, technical insulation, construction products and passive fire protection.
